protecting your digital cargo

13" & 15" phantom

phantom... the urban legend

Phantom has a sleek exterior which disguises the built-in padded laptop section so no-one will ever know the contents of your precious cargo.

Designed in Australia using water resistant pearl nylon, **phantom** has a roomy interior and spacious front pocket with plenty of room for files, books, iPod/mp3 player, wallet, keys, mobile phone and more. It also comes with a 360-degree swivel shoulder strap with quick release adjustor to make carrying your laptop even more comfortable.

Most importantly, its laptop section is padded on all sides to protect your notebook.

small phantom 13"
